INNCOM BY HONEYWELL WINS PEOPLE'S CHOICE AWARD AT HI CONNECT DESIGN 2013

NIANTIC, CT, May 31, 2013 – INNCOM by Honeywell announced today that it has won the People's Choice "Top Sustainably Focused Product" Award at HI Connect Design 2013, hosted by Hotel Interactive in Nashville, Tennessee. INNCOM by Honeywell was chosen from among dozens of eligible world-class suppliers committed to sustainability.

HI Connect is the hospitality design industry's most recognized event that brings together designers, architects, suppliers, and purchasing companies that collaborate to design vignettes that replicate actual hotel rooms.

"We are delighted and honored to have received this award," said John Tavares, director of marketing, INNCOM by Honeywell. "We strive to provide our hospitality clients with solutions that support their sustainability objectives while enabling them to operate efficiently and provide their guests a comfortable and memorable experience."

For HI Connect Design 2013, INNCOM by Honeywell was located in the "Eco" Vignette designed by Bernadette Upton of Eco Decor, North Palm Beach, Florida. In addition, it was featured in the "Luxury" Vignette designed by Michelle Meredith of Michelle Meredith & Associates, Dallas, Texas. Both showcased the versatility of INNCOM by Honeywell's offerings while maintaining their commitment to energy savings without sacrificing guest comfort.

"It's a People's Choice award voted on by all show attendees," said Hotel Interactive CEO, Rich Viola. "They vote in real time with their mobile applications on which suppliers and designers they believe to have the most positive impacts on the hospitality industry."

About INNCOM by Honeywell

INNCOM by Honeywell is a leading supplier of energy management systems for hotels, with energy management solutions installed in more than 1 million hotel rooms worldwide with most major hotel brands. INNCOM's portfolio of energy controls and solutions includes the Integrated Room Automation System, which can be applied to hospitality as well as higher education housing, assisted living facilities, healthcare and military multi-unit dwelling housing.
